Summary

As a highly skilled React.JS Frontend Developer with 3.5 years of software development experience, I am excited to apply for the full time React Developer position at GiveCloud. With expertise in JavaScript, React.JS, Redux, RESTful APIs, and modern front-end development tools, I am confident in my ability to provide innovative and effective solutions to meet user needs. As a collaborative team player with strong communication skills and a commitment to producing high-quality results, I am eager to contribute to Give Cloud's mission of focusing on 'Trust raising, not Fundraising".

Core Competencies

- React, JavaScript, HTML, CSS, ES6.
- Redux, Redux-Thunk, Rest API
- Babel, webpack, NPM/Yarn
- Responsive UI, CSS, Bootstrap, Material-UI
- Unit testing with React Testing Library / Jest-Enzyme
- NodeJs, MongoDB
- Jira, GitHub, AWS
- Adobe XD, Invision Studio, Figma

Experience

Freelance, Ottawa, Canada
Frontend Developer *August 2022 - Present*

- Consulted with clients to understand their business needs and translate them into technical requirements.
- Built custom web applications using React, HTML, CSS, and JavaScript that were responsive, intuitive, and optimized for performance, resulting in a 95% client retention rate.
- Developed and maintained clean, organized, and reusable code, resulting in fewer bugs and easier maintenance.
- Kept up to date with the latest trends and best practices in frontend development, and proactively shared knowledge with colleagues and clients to ensure the best possible solutions were delivered.

Staples, Ottawa, Canada
